Math Review Packet

7th Grade

This packet will be due the first week of school in August, 2016. Students are encouraged to follow the pacing timeline below in completing this packet. This pacing will allow students to have a break following the end of the school year but also to brush up and review prior to the beginning of school in August.

This packet will be graded. Credit for completion and accuracy will only be given if all work and steps are shown for each problem. Please print the packet and use the space given to show your work. If additional space is needed, please use another piece of paper and attach to the packet.

CALCULATORS ARE NOT TO BE USED.
